SCIENCE SPEAKER SERIES

Quantum Magic for Everyone

With
Gilles Brassard

Professor Gilles Brassard, one of the most influential computer scientists in the world, will present a talk entitled "Quantum Magic for Everyone". He is recognized as a founder of quantum information science, quantum cryptography and quantum teleportation. Quantum cryptography allows communication in perfect secrecy and quantum teleportation has been acknowledged as one of the world's most important scientific breakthroughs. Professor Brassard's numerous awards include the Gerhard Herzberg Canada Gold Medal for Science.

Date: Thursday, Feb. 17
Time: 7:30 pm
Where: ATAC 1003
Free Refreshments

2011
Research & Innovation Week
Lakehead University
February 12 - 18

Sponsored by: The Office of Research, NSERC & the Chronicle Journal
